```
Yeah
Feel like a celebration
I made it. (They mad)
Told em Imma make it
They hatin' already
Make me feel like I made it already
I came from nothin'
Climb to the top cuz I made it already
They ain't wanna believe me
I be they favorite already
Cars and hoes and jewels and clothes
I made it already
I made it, I made it
I made it, I made it
I'm poppin' bottles, I'm faded
I made it, I made it
Niggas say I made it
Got these niggas hatin'
Money team
I swear it feels like a bank arrangement
Who'd a thought, the top spot
That I would make it
Rondo got that 30
And broke niggas go crazy
But I ain't really worried bout em
Already got beef and we ain't hear about em
Chanel belt match the red bottoms
She wants you to get the bread out here
Still club throwin' couple thousand
You could see that face on the brick or thousand
See these 50's with the swearholic
Broke ass nigga, turn to cab drivers
Everything foreign
Come from different countries
All these bad bitches
Gettin' different money
If you niggas hatin'
Go and get some money
If you niggas hatin'
Go and get some money (Squad!)
They hatin' already
Make me feel like I made it already
I came from nothin'
Climb to the top cuz I made it already
They ain't wanna believe me
I'm they favorite already
Cars and hoes and jewels and clothes
I made it already
I made it, I made it
I made it, I made it
I'm poppin' bottles, I'm faded
I made it, I made it
```
