

Let Em Know

Lil Durk

Ayo Bleu

Oh-ah

Oh (Turn me up, Josh)

Let's find a better time to T up, fuck that money up, can't re-up
You rich, she broke, then get a prenup, got her body done, the D up
She think she crazy with the knee cups, I'm the type to bring back Fila
Have a foursome with some strippers, if I like 'em, turn to divas
Feel bigger than before, I can never go back poor
I can never go back to trappin', the quarter ounces and the snow
I remember in my city gettin' low-balled for a show
Now I'm the voice, I need two-hundred, I'll take one-fifty plus the dope
Take my chain, then you trippin', I got money, now I'm different
Nuski be there December fifteenth, that's why I really hate Christmas
Told his momma that I got him, and she know I'ma stand on business
Nominated for three Grammy's, a role model for the trenches
Niggas dying for attention, niggas lying for attention
Bitch, I am a menace, I feel like Dayvon Bennett
All these niggas clowns, they be around, that shit a privilege
Actin' like y'all killers, 2020, that shit different

Let 'em know, let 'em know, let 'em know, let 'em-
I'm from the go, from the go, from the go, from the-
Let's go, let's go, let's go
Take his soul, take his soul, take his soul
I keep on crying, I put my feelings in my GLA
I don't wanna rap and I don't really wanna be bothered
I just wanna sip, sip, sip, sip, detox
I just wanna pop, pop, pop, pop, detox

Grew up in the trenches with that mindset, takin' challenges
Put 'em on then when he get on his feet, he'll get to vanishin'
Mindset when I get up off these drugs, they boost my stamina
That pink emerald inside my Nuski chain, it stand for Cancer
The opposition playin' all my shit, I think I'm lit
You doin' that shit on Instagram, puttin' police in our business
Street nigga, I tell my niggas, "Go slide," I'm in my feelings
They ask me how up it is with them, it's to the ceiling, oh
I tell them that I'm thuggin', I just lost my bousin, my cousin
I can do whatever 'cause I'm buzzing, I love it
They say nobody bigger than the mob, I'm above it
I just drunk some lean, now I'm sluggish
I'm sluggish, do you love me? Loyalty, ooh
Do you respect me? Loyalty, ooh

Let 'em know, let 'em know, let 'em know, let 'em-
I'm from the go, from the go, from the go, from the-
Let's go, let's go, let's go
Take his soul, take his soul, take his soul
I keep on crying, I put my feelings in my GLA
I don't wanna rap and I don't really wanna be bothered
I just wanna sip, sip, sip, sip, detox
I just wanna pop, pop, pop, pop, detox
