

Let It Rain

Lil Durk

Raindrops running down my window
It's the soundtrack to the life that I'm involved
Faced with all these problems I can't resolve
But I'm the back bone of the fam
These circumstances turn me to a man, yeah
Out here 'pon the corner, yeah
At the man I call my father, yeah
Ain't no love, we just heartless 'round here
We ain't runnin' from no karma 'round here
Cold nights up in this highrise
After it's so dark, at the starlight
At the building with my crew to get my dough right
Bout to put in work with my lowlifes

But this ain't the life that we chose
It's just how the thing goes, yeah
When the rain pour on my soul
Let it fall, let it flow, yeah yeah

Let it rain, let it rain, let it rain (Let it rain)
Let it pour down so they can feel my pain (Feel my pain)
Really out here in the field, it ain't no game (Ain't no game)
Fuck an umbrella, dog, let it rain (Let it rain)

Let it rain, let it rain, let it rain
Let it rain, let it

I'm smokin' on these 'Woods to ease my pain
Since Nuski left, nothing's been the same
They took Baby D and gave me a migraine
All my problems, yeah, I face it like a man
And my baby mama want me in that kin
You play with the fam, we cut off hands
We play with them beef, they on yo head
Our choppers make it rain and make it wet
I just want this rain to wash this pain off me
(Let it rain, let it rain)

But this ain't the life that we chose
It's just how the thing goes, yeah
When the rain pour on my soul
Let it fall, let it flow, yeah yeah

Let it rain, let it rain, let it rain (Let it rain)
Let it pour down so they can feel my pain (Feel my pain)
Really out here in the field, it ain't no game (Ain't no game)
Fuck an umbrella, dog, let it rain (Let it rain)

Let it rain, let it rain, let it rain
Feel my pain, feel my pain, feel my pain
Let it rain, let it rain, let it rain
Feel my pain, feel my pain, feel my pain
