Lil Durk

(Touch of Trent be wildin' with it)

I be takin' all these pills to easy up my pain now
Lost too many niggas at a early age and I hate crime
Call a nigga a snitch in a public place, feel like a hate crime
'Cause them real niggas vouchin' for 'em, yeah
And I still be with my brothers even though I'm rich and all
I slowed down deeply off them pills, they mixed with fentanyl
You see a crime, don't say nothin' 'bout it, no matter what you
saw

Only The Family in my bloodline, fuck what you thought
Too many shots fired around big apartment complex
I done seen my close homie get shot, I was thinkin', "I'm next"
My two crodies, they're my brothers, they say, "No contacts"
They said our name but left us hangin', man, that's all facts

I put my pain in my music, they say I don't do shit
I'ma take these drugs and abuse it
Feel like I'ma lose it
They said, "We movin' like a mob," but I told them, "It's a mov
ement"

This shit in my flesh, nigga
Tellin' on the brother or the opp, you're still a rat, nigga
I seen't the best with it
He grab the pen and the pad and I seen him make a mess with it
(Tell me what we want, when you're down, yeah, yeah
Tell me what we want, when you're down, yeah, yeah)
These niggas bitches, they be movin' off emotion
Instead of fightin' with my brothers, I'd rather fight these bo
zos
If my dog get caught for a murder, best believe I'm on it
If he tell, he'll tell again, he tryna get up on us (Uh-uh, uh)
I'm tryna live up with the finer things
Shoppin' therapy, I spend my last on designer jeans
They ask me, "Do I rap?" I say, "I kinda sing"
I cut my mouth with fifty thousand next time I gotta sneeze
(Movement, let the beat take me away
I wanna go, let the streets take me away)

I put my pain in my music, they say I don't do shit
I'ma take these drugs and abuse it
Feel like I'ma lose it
They said, "We movin' like a mob," but I told them, "It's a mov
ement"

(Tell me what we want, when you're down, yeah, yeah
