Lil' nigga, we used to roll with some motercats
Had macs in the trenches like shoulder straps
Shoot at me, on your head, put twenty racks
Where your money at? Why you get over stretched?
All my niggas off drugs, on stronger acts
I won't change, I'm the same, I'm sober [?]
I just bought a brick and it cost a Patek
And if I say it's smoke, then they know it's stacked
My side, my side, that's Lamron
From the part of the city, they scam hard
You would sell your own momma heroin (let's get it)
The kids that you raised they'll blam some
Ran off on the plug through a Samsung
Feds tapping all the iphones
Goons lurking like a Plies song
Get it right before you die wrong

Where I'm from it ain't safe boy its wild
Keep a gun cause I gotta survive
Nigga better not come twerk on my side
Nigga know all my niggas gon' ride

Where I'm from it ain't safe boy its wild
Keep a gun cause I gotta survive
Nigga better not come twerk on my side
Nigga know all my niggas gon' ride
