

Rebellious

Lil Durk

I still got family in the hood, that shit for real
And I swear they on my mind when I'm off them pills
Only thing on they mind, go and kill
Told my granny I can't deny, gotta pay her bill
She said I'm the reason for this daffy gave me chills
I thought my life was supposed to change when I got that deal
So this is how it feel
This is how it feel

Niggas vibes different
You even smile different
I even fall off with these niggas that I know will ride with me
I lost cousins to these streets, that make my high different
I left Ikey around some pounds when the job missing
I put my bitch on jets smarter, she even fly different
30 pair Amiri jeans, I say my fly different
Even though I'm rich, I still around so all my guys trippin
I know y'all miss me, I miss y'all too
But I'm out the Chi with it
Who ever thought the bitch we slept around was scandalous?
If you gon' cheat on him, don't cheat on him with the fellas
I'm around millionaires, I'm a changed niggas, I'm tellin ya
Everybody around me gang, we rebellious

I still got family in the hood, that shit for real
And I swear they on my mind when I'm off them pills
Only thing on they mind, go and kill
Told my granny I can't deny, gotta pay her bills
She said I'm the reason for this daffy gave me chills
I thought my life was supposed to change when I got that deal
So this is how it feel
This is how it feel

A lot of nights I be smiling, but I still be so lonely
DD my roadie, so I'ma know how he feel if he lose his motion
Nowadays, you ask a nigga for a favor, he gon' think you owe him
Shit builted me since 2012, you play and I'ma show em
They'll bust your brain, you think I'm playing
You better tuck your chain
Nowadays they going off the murders, they don't go off names
But let a nigga play with me, his life gon go in flames
They say I got some kids out right now that I do not claim
I know I don't so look bitch, chill you're steady chasing fame
I'm tryna figure out why you squealin', got a big name
Take my pain, my pain away, away, away, away

I still got family in the hood, that shit for real
And I swear they on my mind when I'm off them pills
Only thing on they mind, go and kill
Told my granny I can't deny, gotta pay her bill
She said I'm the reason for this daffy gave me chills
I thought my life was supposed to change when I got that deal
So this is how it feel
This is how it feel
