

## True or False

Lil Durk

Baby what's wrong with you?  
You make me feel some type of way, I'm on this song with you  
You say you gon' do this and that when I'm alone with you  
But when we link up we get nervous, boy what's wrong with us?  
You get this shit together, get it rollin'  
These bitches be all in my face but I ain't goin'  
These niggas be all in my face but I ain't goin'  
She want love and affection, I'm a show it  
Yeah you be talkin' all that shit, you gotta prove it  
And I will do it  
If she let me touch it, shit I probably will lose it  
Man this nigga crazy, got a few screws loose  
He must be off all that lean, with that movement  
Your favorite color yellow, I just sent you flowers  
When I'm not around you don't text me back for hours  
You fuckin' with a real nigga, heard you used to cowards  
Yo, hold on  
Hold up, wait a minute, though  
All them bitches been a joke  
I'm a put some real shit off in your life, I'm tellin' you  
DeJ we'll do that dance, for real, you've been my boo back then  
Thought you had a nigga and you really was a fool for him  
I'm gon' have you where you need to be  
Don't flash your wrist at me  
Cause you know that it's more than that  
This really where I need to be  
The fans made memes of us  
Beyoncé was a thing for us  
And you know my genes are strong  
We can make a team of us

Durk and DeJ  
Yeah, Durk and DeJ  
It sound good, don't it?  
You want a good woman  
If you want it like you say it, put your hood on it  
Only a family in my eyes, I'm a say it first  
Durk and DeJ, DeJ and Durk, whatever way it works  
It sound good, don't it?  
It sound good, don't it?  
Durk and DeJ
