

Cabbage

Lil Gnar

Said I did you wrong, that had to happen
And I need all that green, I need the cabbage
I was down too long, so I had to grab it
And anyone touch my chain, I get to spazzin'
Oh, I get to clappin'
I go to LA just for a day
And fuck on a baddie
I shop in LA and I don't do no baggage
I'm so far from average
She gon' do whatever a young nigga say
'Cause I am the captain
I held that shit down, I had me some faith
Like I was a pastor

Ain't callin' the opps, I'm grippin' the chopper first
New Rollie a Presidential, I make it go in her purse
Young nigga born to drip
All my life, plan for this shit
All my life, plan for this shit
All my life, plan for this shit
Open up fire in the residential
If we keep poppin' you lit up
Got a new Draco Mini, matte black, and it pop like a zit
Ride with the gang, ride with the mob like we a family
Gang gon' pull up, wipe out your family tree
All my diamonds ain't got no flaw, this shit ten a piece
All this Off-White on, bet she notice me
These niggas know I'm a bully
Flood your blouse with bullets
You cross me, I'll turn to a shooter
Put hoes inside your medulla
The Ward or you come from the Nolia
Gotta keep with my bros till it blow up
My nigga got a glock nine, he gon' shoot for free
Take your life for free
Knock your whole wig off, leave it in the street
Leave it in the street

Said I did you wrong, that had to happen
And I need all that green, I need the cabbage
I was down too long, so I had to grab it
And anyone touch my chain, I get to spazzin'
Oh, I get to clappin'
I go to LA just for a day
And fuck on a baddie
I shop in LA and I don't do no baggage
I'm so far from average
She gon' do whatever a young nigga say
'Cause I am the captain
I held that shit down, I had me some faith
Like I was a pastor
