Stuffing this cash in Amiri can't fit enough
Skinny young nigga walking around like I'm big and buff
I got 4-5 on my hip it gone lift em up
Plug hit my line and you know I'm gone pick it up
Told her go get me some dope and don't sniff it up
I went to hell and back with a backpack serving raw
I keep a nightlight on the blick watch for the most yeah
I ain't finna back track I can never miss a loss
Fuck em all, I go butterfly doors on Aventador
Bet them pants gone drop when I lift them up
I just flew in a little hoe from Panama
Splurging, short say I look better in person

Finna stuff my whole Glock in her Birkin
I be blowing that bag because I earned it
Trying to fuck on the guap, get my money pregnant
My put ice in my watch and I froze the minute
Trying to take down the plug, get the Bentley truck
When a real nigga hit your phone pick it up
