

Control Me

Lil Gotit

(Vibin' out right on da West)

So many things you don't get
So many of your things we don't fix
So many of your friends blamin' me
They just want your lane keep it G
I know you see me doin' wrong
It's blocking all of the right
Wit' your plain rollies all on
Your earrings carats on sight
I just want you to ride (Ride, baby)
(I just want you to decide, baby)
Stonghold for your love
I'm blockin' her ego for life
You know about you, you're no star fly
Ayy, seriously somebody die

You can't control me, control her, control her, control her, control her
You can't control me, control her, control her, control her, control her

Yeah, girl rolling up your weed
I'm trynna lower your visa
Threesome you know what I mean
Let you pick her then let her come please us
They just sellin' you dreams
The deeper I go there's a ring
Got me all in your room like a creature
I know you know the boogiemán comin' for us

You can't control me, control her, control her, control her, control her
You can't control me, control her, control her, control her, control her

I got baby girl thrown' slime
Niggas just stealin' drip and that a crime
Through the types of margaritas and limes
I just need you to snap for the one time, for the one time
For the one time, one time, one time
Seriously (Yeah), yeah, we fuckin' on the alcohol milk
Money in clouds, we gon' bust all the real
Got your problem with me, damn I'm a real
Jumpin' up and down, no stayin'
Jumpin' in and out of DM's slayin'
We can slay these bitches, I ain't playin'
YSL loaded, y'all just fans
I get chills thinkin' 'bout my past
Youngen jumpin' out, livin' fast
I got striker killers and they crashin'
I can pay for pests if you ain't lastin'
I can stock up guns, never lackin'
Ain't no back and forth, know your bracket
Chinese kitty, titties on a Caucasian
Drip all occasions, I'm out of patience
Diamonds segregated, sleeve raises
I can't buy for slime, he the A-list
Breakin' baby, gunner eliminated
Cut off heads and hands 'bout your baby (Yeah)

So many things you don't get
So many of your things we don't fix
So many of your friends blamin' me
They just want your lane keep it G
I know you see me doin' wrong
It's blocking all of the right
Wit' your plain rollies all on
Your earrings carats on sight
I just want you to ride (Ride, baby)
(I just want you to decide, baby)
Stonghold for your love
I'm blockin' her ego for life
You know about you, you're no star fly
Ayy, seriously somebody die

You can't control me, control her, control her, control her, control her
You can't control me, control her, control her, control her, control her
