

## Worth It

Lil Gotit

(10Fifty, I love you)

Real OG's  
Smokin' stunner blunts, we ain't rollin' OG  
Chanel purse, got rolls on wrist  
Racks in my pants, call it bread on me  
Thirty in the clip, shootin' like Ali  
They killed the whole hood just to find me a mink  
Atlanta break the whole climate  
I can change a bitch so kindly  
Your bitch is a freak, can't control that  
Stuck tryna dodge all the Kodaks  
Killin' these niggas, need a casket (Let's go)  
Buy the world, I don't need a basket  
Stood my all on it, I deserve royalty  
Is it worth to be major league?  
I went through pain for this  
Just for some recognition

Went up and lil' shawty got vibes in the safe  
Deebo independent so he copped a big Wraith  
If she want bags, that money I wait  
She gon' bring it back and Big Slime the man  
Bodies droppin' in your street like lead  
I don't want your ho, lil' bro, come get her  
Keep disrespectin' slime, yeah, that my lizard  
Loud weed stink, it smell like gizzard  
Thick red bitch, I call her Bentley  
And she dress it right up like we came from Gala  
Big Cuz in the back and he pourin' up doses  
I'ma make the boss run this like a runner

All the cap gon' stop  
The reason I went tatted Hood Baby on my body  
'Cause I really know I came from nothing  
Every day I sit and count my blessings  
If they play with blessings we sending some missiles  
Let 'em know how they feelin' 'bout me  
Every time they be talking, feel like Christie  
Smokin' loud, feel like my heart done beatin'

Got cords in the feet from wearin' new Celine  
Let all my problems go, let all my problems go  
He tried to bust a cantaloupe  
We better see, you don't know nose
