

# Moist

Lil Jon

While attention is way too thick  
I can taste your skin on my lips (My lips)  
And I'm tryin' to hold the time  
Nigga, you know that thing I want  
Take your phone out and kick your friends out  
I wanna start right here on your couch (The couch)  
Pour a shot cause you know what's next  
Put them panties again to [?]  
You got me so moist

Moist

When you touch my spot, got me burning so hot  
Baby take it down 'fore I get up on top  
Moist  
Put your face down there while I'm playing your hair  
I'ma keep it calm and-and you bet me moist

I know why you want it, I know why you need it  
Don't nobody beat it up the way that I beat it  
She said that I'm a champion cause I'm undefeated  
And I admit hard for ya whenever you need it  
Soft and wet, let it set, go, go, go, go  
Give it too ya till ya can't take no more, oh  
That's that just and bust, wet wide, slip-n-slide  
It's a dripped out when you ride  
Slow and steady, girl you ready?  
Don't get messy, you so kinky  
[?] slow puffing legs open wide  
Super wet like some Master God down the side  
Tears rolling down them cheeks, it's so sloppy  
When we freak, we gon have to change the sheets  
Skeet, skeet, skeet, skeet  
Slim poking, when we freak, we gon have to change the sheets  
Skeet, skeet, skeet, skeet
