

## Exit

Lil Keed

Yeah, yeah, yeah, yeah, yeah  
Everybody motherfucking thinking around here, nigga  
Sticks and shit on that, nigga  
Y'all know how the fuck we bleed, nigga  
We bleed a nigga to bounties, nigga  
Low key, look out  
Let's get it  
I was trapping at the BP, serving mid to you  
That drug sliming, nigga, why they know I had to get it  
My first lick, I hit for 10, I was in sixth grade  
I put a 30 on that Glock, give you a temp fade

Pull up in the apartments after dark, they strip you naked  
Told lil' baby to FaceTime me, I ain't with no texting  
On that fake rap shit, we come and take your necklace  
Catch them down bad, switch see that baby at the exit  
Did that gang-gang bang, bang, snatch your chain shit  
If you ever try LGRG, you get your brain split  
Chopper got ammo, you know that we load it  
It's a 30 on the bottom of the Glock that I'm holding

I'm all on the block with a slime, we posted  
Just tied a lotto, now we straight to the top  
Keep a 30 and a beam on my Glock  
Strip a nigga all way down to his socks  
His heart dropped when he seen he got popped  
My mama my dad so I didn't have no pop  
Bitch, I'm number thugging, we straight off the block  
Diamonds they hit like a bitch  
Hit that little nigga ass up with the stick  
She get on her knees, she going to suck like a tick

I was trapping at the BP, serving mid to you  
That drug sliming, nigga, why they know I had to get it  
My first lick, I hit for 10, I was in sixth grade  
I put a 30 on that Glock, give you a temp fade  
Pull up in the apartments after dark, they strip you naked  
Told lil' baby to FaceTime me, I ain't with no texting  
On that fake rap shit, we come and take your necklace  
Catch them down bad, switch see that baby at the exit

I am not new to this  
I am so true to this  
Draco came with a cooling kit  
Been a five day on that booty shit  
Got stripped in the park by them hooligans  
Hit his ass up with a stick like a Snoodle stick  
I gave him that thing and I beat up her uterus  
Cover that self if he come with that foolishness  
I beat up the pot so you know I'm not new to this  
I spent two bands on gays  
I don't do the Louis, I just rock the J's

He calling out best, I come up with that K  
I got to hit my phone, he say he got plays  
I used to be broke but that shit was a phase  
She want me to fuck but I just want the face

I grip on that butt and I nut on her face  
Sip a call a bitch get back in the Wraith  
I was trapping at the BP, serving mid to you  
That drug sliming, nigga, why they know I had to get it  
My first lick, I hit for 10, I was in sixth grade

I put a 30 on that Glock, give you a temp fade
