

Leveled Up

Lil Keed

I can't let him stop my shine I'm staying on my grind
I just leveled up my status it's my time
I got diamonds on my neck and it might just leave you blind
I got vibes tryna get at my light make em wait in line
A lot of things on my mind ya
My momma she raised me she's a strong lady
That hate really don't phase me you don't know about me
Nothing but exotic cars we cranking with no keys
You couldn't walk a mile in my shoes
Got scars up on my feet

It's only positive vibes negative vibes I look straight past
Niggas burning out but PJ definitely gonna last
I got diamonds on my neck now that shit like glass
My whole gang we got racks now we deep in our bag
I'm just slimey and shady
I fell in love w Amiris
Hellcat swerving red key you wasn't around you don't know me
She just gave me sloppy rocking the chrome heart tee
I'm a playa I'm gonna pay what I weigh it it costs to live like me

I can't let him stop my shine I'm staying on my grind
I just leveled up my status it's my time
I got diamonds on my neck and it might just leave you blind
I got vibes tryna get at my light make em wait in line
A lot of things on my mind ya
My momma she raised me she's a strong lady
That hate really don't phase me you don't know about me
Nothing but exotic cars we cranking with no keys
You couldn't walk a mile in my shoes
Got scars up on my feet

My momma she know I go get a bag she ain't worried about me
We talk bout the streets I came from that acknowledge me
My bitch she bad she dripping in morning straight to the feet
S L A T T
I think it's bout time to porcelain my teeth
Paying whatever my racks on me
We come through slime come through flyin
Niggas ain't doing no creep and I'm a big angel we ain't doing sting
And my shooters look all winking and cleaning
My FM obsessed me and clingy
And me and pj balling on niggas you can catch us on jetskiis all in Miami

I can't let him stop my shine I'm staying on my grind
I just leveled up my status it's my time
I got diamonds on my neck and it might just leave you blind
I got vibes tryna get at my light make em wait in line
A lot of things on my mind ya
My momma she raised me she's a strong lady
That hate really don't phase me you don't know about me
Nothing but exotic cars we cranking with no keys
You couldn't walk a mile in my shoes
Got scars up on my feet
