Left her with a messy face (uhh)
I just put it down with her on the streets
And then I race (skrt skrt skrt)
Give it to her just like a cadence (get a lil)

But don't play around you get wiped up (drip or you drown)

Aye, take care of that pussy
Scared to go in it like woods
She could stay here if she cooked

Suck my banana, no pudding
Bitch, get your stems out these woods
You know lil mama got good
Nut on her teeth, no, bush
Me and her up to no good
When she run her mouth
Nut inside her mouth
Aye, jumping in, no kangaroo
Get the bitch a pouch
Put her out the house
She fuck my dawg, chow
He like her cat, meow
Champion in the house, hey
She wan' chill around me everyday
She like when I call her mama "bay"
I'm losing my voice, I cannot speak...
Right every damn night
We get a kick out it like Spike
Hey, whenever I do not see her, she wanna fight
I just wanna hold her like a mic
No Tyson, I won't one-night it, I wanna wife it
And buy it everything that it desires

Who would you tell?
'Cause I wouldn't tell
Hey, I'm scared
Of you and what you can get done to me
Who said they dare?
Who say they dare?
