But shit, let me rap this shit out  
Ayy, yo, Nasher, you go crazy

All the smoke in the air got me winded  
I've been killing since the beginning  
Invested in me, now I'm winning  
"6locc 6a6y" was born to make millions  
All the smoke in the air got me winded  
I've been killing since the beginning  
Invested in me, now I'm winning  
"6locc 6a6y" was born to make millions  
My momma created a goat  
Last morning, I slept on the floor  
Kicked out I had nowhere to go  
On the block I had made it my own  
Vacant apartment, I slept with a roach  
Niggas be snaking they playin me'  
Feeling reflective, Lil Loaded a goat  
These fakes hall of faming  
But yet ain't one of 'em blow

Ayy, I'm rocking shit, I'm blocking shit  
Hop out, get to spotting shit  
Hop out, get the Glock and shit  
Be on 'em, get the drop and shit  
I ride a mop, I ride around with a.223, my brother got the chop  
An AR with that beam, bitch, it came with the stock  
I took it off the end so I could whack him on the spot  
My niggas on that drill shit, pop out on that kill shit  
Call my top shotta nigga, know they on that real shit  
With my real nigga that be posted in the hood  
Come to the woods, knowin' all was good  
We pullin' out with sticks, bitch, we pullin' out with mop  
We pullin' out with choppas, leave a nigga body flop

All the smoke in the air got me winded  
I've been killing since the beginning  
Invested in me, now I'm winning  
"6locc 6a6y" was born to make millions
