

Alone

Lil Lotus

Playing with my head is too much
Laying in this bed is too hard without you
Everyday I'm getting too drunk
Try to numb the pain so I don't think about you

But I never wanted to feel this alone in my life
(But I never wanted to feel this alone in my life)
Take you for granted and push all my loved ones aside
(Take you for granted and push all my loved ones aside)

And I'm staring at the floor, I'll just drink some more
Try to numb the pain, yeah baby I just need that
And time plays tricks all in my head, remember what you said
Maybe I could change, yeah maybe I could be that

Maybe I could change
Yeah, maybe I could be that
I never wanted to feel this alone in my life
Ohh, maybe I could change
Yeah, maybe I could be that
Take you for granted and push all my loved ones aside
I never wanted to feel this alone in my life
Take you for granted and push all my loved ones aside
