

Barely Breathing

Lil Lotus

I'll tend to this like the pills I'm eating
It's not enough if you leave me bleeding
And it's not love if I'm barely breathing

I'm barely breathing (I'm barely breathing)
I'm barely breathing (I'm barely breathing)
I'm barely breathing (I'm barely breathing)
I'm barely breathing (I'm barely breathing)

Find out how you say I'm a problem
Even if it's true, if we're really being honest
Far from the phone when I'm calling
I don't even think you really want it

(Cold Hart, baby)
And if we being honest
I don't even think you really want this
You don't even answer when I'm calling
I was at the top floor, now I'm falling
Tesla S when we sliding
Tell me why they look when we arriving
But they don't even know
Suicide doors, up and down the road
And now I'm barely breathing
And every time I see you, you be screaming
Nowadays, I think you hate me
I'm hanging out the window 'til you save me

I'll find a place to call my own (I'm such a mess, such a mess)
I'll try to do this all alone (But I'm still trying my best)
I'll find a place to call my own (I'm such a mess, such a mess)
I'll try to do this all alone (But I'm still trying my best)
I'll find a place to call my own (I'm such a mess, such a mess)
I'll try to do this all alone (But I'm still trying my best)
I'll find a place to call my own (I'm such a mess, such a mess)
I'll try to do this all alone (But I'm still trying my best)
