Do Better!

Lil Lotus

You don't even notice, you lose your focus
When I'm crying out for help
You say that you love me, you don't even show it
Even when I've got nothing left

Try my best but nothing's working
Oh my god, you don't deserve this
I know you're thinking a lot about it
When you're feeling scared and alone

I just hope that you know
I think that you could do better, do better than me
I thought you'd be here forever, forever with me

Baby take a breath, I think we got it wrong
Oh it's true, oh it's true
I don't wanna think about it anymore, I'll miss you
I don't ever wanna do better

Cause you're always running back
It feels like we're running last, why are we so dramatic?
I know you're so attacked, but it's time to face the facts
Is this gonna end so tragic?

Try my best but nothing's working
Oh my god, you don't deserve this
I know you're thinking a lot about it
When you're feeling scared and alone

I just hope that you know
I think that you could do better, do better than me
I thought you'd be here forever, forever with me

Baby take a breath, I think we got it wrong
Oh it's true, oh it's true
I don't wanna think about it anymore, I'll miss you
I don't ever wanna do better

I don't get it, why would you stick around
If you meant it, why won't you kick me out
My bad habit, get this taste out my mouth
It's so tragic, guess I'll keep you around

I don't get it, why would you stick around?
If you meant it, why won't you kick me out?
My bad habit, get this taste out my mouth
It's so tragic, guess I'll keep you around
