

how's it feel to feel nothing

Lil Lotus

How's it feel
You say you say you're better off on your own
Some things just don't change
But that's some thing we already know
How can you be so sure
How can you be so overdramatic
How can you be so sure
That this won't happen again
Over and over again

But I can't take it
I feel the words falling off my tongue
I hate this
We kept this going way too long

How's it feel to be broken
How's it feel to feel nothing at all
How's it feel to be broken
What took so long to notice
Who's that behind your eyes
What took so long to let go
I've died a thousand times
And I still wake up in your bed

Baby tell me again
How I fucked up everything between
You and your friends
Baby turn the lights off lights off
We can pretend

But I can't take it
I feel the words falling off my tongue
I hate this
We kept this going way too long

How's it feel to be broken
How's it feel to feel nothing at all
How's it feel to be broken
What took so long to notice
Who's that behind your eyes
What took so long to let go
I've died a thousand times
And I still wake up in your bed

How's it feel to be broken
How's it feel to feel nothing at all
How's it feel to be broken
And I still wake up in your bed
