

## I can't do this

Lil Lotus

You're the rope around my neck so don't go unless you have to  
Air so tight inside my chest and if I fall then it's a bad move  
Tell my self that I'll be fine, I'll be worse if I don't have you  
Cause I'm miserable at best but now and then I know you're sad too

And I don't want you to go  
So please don't leave me alone  
Cause I can't do this on my own  
So please just stay by your phone  
Cause everytime I'm on my own  
I can't find my way back home  
And I don't want you to go  
So please don't leave me alone

I'm so stuck inside my head and all I ever have is bad dreams  
I've been tossing in my sheets cause I just wanna make you happy  
And I doubt you even care but you're still perfect when you cry  
Most nights I don't wanna live you make me never wanna die

And I don't want you to go  
Cause I can't do this on my own

And I don't want you to go  
So please don't leave me alone  
Cause I can't do this on my own  
So please just stay by your phone  
And everytime I'm on my own  
I can't find my way back home  
And I don't want you to go  
So please don't leave me alone
