

i dont think that u see me

Lil Lotus

Fall to the ground, feel the weight of the medicine
I don't think that you see me at all
Blood on my hands, put my fist through the wall again
I don't think that you see me at all

I don't feel like you see it, you're the one that I needed
I'm falling to pieces, I just hope that you see this
But I'm blind to the reasons, and I love you through the seasons
You're my winter, spring, my summer and my fall
I don't think that you see me at all

Fall to the ground, feel the weight of the medicine
Blood on my hands, put my fist through the wall again
Falling to pieces, living life with no meaning
I don't think that you need me, I don't think that you see me at all

I don't wanna be the one to break
I just need you to call me and say you want me
We don't gotta do anything
Can you come right back, we don't gotta do nothing
Just listen, and I'll talk
Say come home, and I'll walk
And I need you in my heart
Yeah, I told you from the start

Got me shaking, I don't think that I can take it
And it's so real, I can't even fake it
I don't even know if I'ma make it
Break me down right now
I can't even call you on the phone right now
But I'm scared to be alone right now
But I'm scared to be alone right now
But I'm scared to be alone right now

Fall to the ground, feel the weight of the medicine

I don't feel like you see it, you're the one that I needed
I'm falling to pieces, I just hope that you see this
But I'm blind to the reasons, and I love you through the seasons
You're my winter, spring, my summer and my fall
I don't think that you see me at all
