

Let Me Die Here

Lil Lotus

I don't wanna feel anything anymore
I just wanna put my hand straight through that door
Now I got wrist bleeding on the bedroom floor
'Cause I don't wanna feel anything anymore

I remember everything from the time that you left my side
Wiping the tears, no, don't fuck with my eyes
Biding my time, I wanna try
Just to forget you but I feel alive
Like oh, please take my life
Please take my life, it's the best time to die
Like now, I wanna die right now
I wanna die

I don't wanna feel anything anymore
I just wanna put my hand straight through that door
Now I got wrist bleeding on the bedroom floor
'Cause I don't wanna feel anything anymore

I don't wanna live in a world without you
Even after all the shit you put me through
You're still the one
The night grow cold and I'm alone
And you don't ever pick up the phone when I call
So let me die here

I don't wanna feel anything anymore
I don't wanna feel, I don't wanna feel
I just wanna put my hand straight through that door
Through the door
Now I got wrist bleeding on the bedroom floor
Bleeding on the bedroom, I'm bleeding on the bedroom
'Cause I don't wanna feel anything anymore
I don't wanna feel anything anymore
