

## Let's Pretend

Lil Lotus

How you gonna make me feel this way, when you don't even feel the same way, yeah?

Don't call me if you need someone, I don't ever talk to others  
Tell me something new, I don't care about the old  
[?], other people, they don't love me (show no love, yeah, yeah  
)

Can we pretend like it's 1997?

Can I have your affection?

'Cause I need your attention (I hope I'm calling you out, I hope I'm calling you out)

Because your body needs to hear the message

I never meant to make you feel like this

Tell me what it takes to make you miss me (I know, I know, I know, [?])

Now I'm laying in my room, I feel like shit

Nothing's been the same without you with me

Can we pretend like it's 1997?

Can I have your affection?

'Cause I need your attention (I hope I'm calling you out, I hope I'm calling you out)

Because your body needs to hear the message
