

# Lips That Kill

Lil Lotus

She's got lips that kill. And tie me up  
I couldn't leave even if I wanted to  
She tastes just like a pill. But I took too much  
I probably shouldn't but I wanted you

You want me chasing every beat of your heart  
Cause you know you're something special  
But you leave me wandering alone in the dark  
You got me dancing with the devil

So I took a pill and I feel it now  
Got all these words pouring out of my mouth  
Let's light it up and let's burn this down  
I'm scared too, baby I'm scared too

She's got lips that kill. And tie me up  
I couldn't leave even if I wanted to  
She tastes just like a pill. But I took too much  
I probably shouldn't but I wanted you  
This could be the bad thing  
I don't know what's happening, oh  
(She's got lips that kill)  
(She's got lips that kill)  
This could be the bad thing  
Baby why you act so cold  
(She tastes just like a pill)  
(Just like a pill)

This could be a bad thing  
This could be a bad thing

This could be a bad thing  
This could be a bad thing

She's got me right where she wants me  
She told me don't trust me  
She's dragging me six feet under  
She could leave in a heartbeat  
She built me to break me  
She hits me like rolling thunder

Oh, here we go again  
Oh, hope this never ends

She's got lips that kill. And tie me up  
I couldn't leave even if I wanted to  
She tastes just like a pill. But I took too much  
I probably shouldn't but I want you  
This could be the bad thing  
I don't know what's happening, oh  
(She's got lips that kill)  
(She's got lips that kill)  
This could be the bad thing  
Baby why you act so cold  
(She tastes just like a pill)  
(Just like a pill)

This could be a bad thing  
This could be a bad thing

This could be a bad thing  
This could be a bad thing
