

## Make It Home

Lil Lotus

I got too much on my mind, trying to pick up the pieces  
I swear that I'm trying, I swear that I'm trying  
And everything is alright, go back and sit in and write  
Go back and sit in and write

She don't wanna die young, she don't wanna breath slowly  
Girl, I want you around me, girl, I want you around me  
She don't wanna die young, baby girl, breath slowly  
Don't leave me lonely, don't leave me lonely

Just call me when you make it home  
I hate when you leave me alone  
I hate when you leave me alone  
Just call me when you make it home  
I hate when you leave me alone  
Call me when you make it home, no, baby

So bring it right back, bring it right back, baby don't go  
I hate when you leave me sitting here staring at my phone  
Bring it right back, bring it right back, baby don't go  
I hate when you leave me sitting here staring at my phone

Just call me when you make it home  
I hate when you leave me alone  
I hate when you leave me alone  
Just call me when you make it home  
I hate when you leave me alone  
I hate when you leave me alone, no, baby

Just call me when you make it home  
I hate when you leave me alone  
I hate when you leave me alone  
Just call me when you make it home  
I hate when you leave me alone  
Call me when you make it home, no, baby
