Make that back

Lil Lotus

So much time now
So much time now
So much time now
She got so much time now

She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
Now I'm gon' spend some money, watch me make that back
She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
Now I'm gon' spend some money, watch me make that back

That money talks back, baby, you just talk shit
I don't need no one, I need ice on my wrist
I'ma get the money, yeah, you can shoot and miss
I'ma get the money, I'ma spend it on my wrist
I'ma spend it on my fist, never spend it on a bitch
I'ma real young boy and I'm really with the shits
Gotta make this moment last, I don't think about the past
She got so much time now but, baby, I don't need that

She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
Now I'm gon' spend some money, watch me make that back
She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
Now I'm gon' spend some money, watch me make that back
She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
Now I'm gon' spend some money, watch me make that back
She got so much time now but I don't need that
And I still walk around with that knife in my back
Now all I want is money, I don't think about that past
