

Nothing Left

Lil Lotus

Saw you last night, haven't seen your face in a minute
The look in your eyes, is what you can't put in a sentence
And we can slow it down, I've always got time to kill
Is this real? Can't be real, can't be real
(Is this real? Can't be real, can't be real)

This is what you wanted, now we're back where we started
I've been broken and heartless, I don't wanna be like this
Tell me right now is it gonna be the same way?
Everything changed when I found out what you did
And I don't wanna be like you

Saw you last night, haven't seen your face in a minute
The look in your eyes, is what you can't put in a sentence
And we can slow it down, I've always got time to kill
Is this real? Can't be real, can't be real

And I can't just play pretend
I don't wanna feel like this
Hardly get over it
And I can't do it again
Few words in my chest
Till I got nothing left

And I can't just play pretend
I don't wanna feel like this
Hardly get over it
And I can't do it again
Few words in my chest
Till I got nothing left

Till I got nothing left
Till I got nothing left
