

Rigor Mortis

Lil Lotus

I can feel your heartbeat
Beating out your chest, are you okay?
Cold lips
Breathing down my neck, is that cocaine?

I'm so numb, but I could float with you forever
I'm so numb, but I could float with you forever

I know you don't wanna die
But we all gotta go sometime
And I was thinking tonight
Rigor mortis till sunrise
I know you don't wanna die
But we all gotta go sometime
And I was thinking tonight
Rigor mortis till sunrise, till sunrise

We're all dying on the inside
My body's broken and bruised
I ran away from myself last night
And I could take you there too

I'm so numb, but I could float with you forever
I'm so numb, but I could float with you forever
I'm so numb, but I could float with you forever
I'm so numb, but I could float with you

I know you don't wanna die
But we all gotta go sometime
And I was thinking tonight
Rigor mortis till sunrise, till sunrise
I know you don't wanna die
But we all gotta go sometime
And I was thinking tonight
Rigor mortis till sunrise, till sunrise
I know you don't wanna die
But we all gotta go sometime
And I was thinking tonight
Rigor mortis till sunrise, till sunrise
