

# Rooftop

Lil Lotus

(Meet me on the rooftop, it's my last night in L.A)

Started with a drink, then I had a couple more with you  
Started with a wink, I could see you watching from across the room

Now it's true, every good thing has to come to an end  
And I miss you too baby, but I promise I'ma see you again

Meet me on the rooftop, it's my last night in L.A  
I don't wanna see you cry, baby girl, I'll be okay  
Baby, we got one last night to party  
Baby, we got one last night to dance  
Meet me on the rooftop, it's my last night in L.A  
It's my last night in L.A

I remember thinking "Am I ever gonna see you again?"  
I remember blacked out nights, said you want me more than a friend  
I know this feeling, but girl, it's not love  
Here for a second, another, I'm gone  
We havin' fun, but how much is too much?  
You know I never stay

Meet me on the rooftop, it's my last night in L.A  
I don't wanna see you cry, baby girl, I'll be okay  
Baby, we got one last night to party  
Baby, we got one last night to dance  
Meet me on the rooftop, it's my last night in L.A  
It's my last night in L.A  
(Meet me on the rooftop, it's my last night in L.A)

I'm up pretty good, but can't stay in one place  
Just runnin' away, I'm just runnin' away  
Once last time  
Staring at the sky, baby, pouring in the moonlight  
One last time  
Let's get high, I don't wanna see you cry tonight

Meet me on the rooftop, it's my last night in L.A  
I don't wanna see you cry, baby girl, I'll be okay  
Baby, we got one last night to party  
Baby, we got one last night to dance  
Meet me on the rooftop, it's my last night in L.A  
It's my last night in L.A

It's my last night in L.A
