

she's a vampire

Lil Lotus

I find it funny how you always say the wrong thing
Backseat driver but you always go the wrong way
Part of me is always thinking about turning around
But you locked the doors and I can't get out
And that's fine
Baby what's done is done I don't mind
You're such a pretty one just don't bite
Why do I only see you at night
So tell me all of your secrets I want to know
Oh here we go the more you say the less I know
And I came home alone
Cuz all your friends are so important
I love you still
Always have and I always will so I guess
We're stuck like this forever

I'm done pretending and maybe it's too much to wish for happy endings
Cuz baby all I want is for you to end me now
(When the sun is going down)
Cuz I knew from the start you felt the beat of my heart
And you knew it was worth a killing
Cuz your love was we touch and now we're covered in blood
And we both sleep from the ceiling
So let's keep a secret
Nobody has to know
Oh here we go the more you say the less I know
And I came home alone
Cuz all your friends are more important
I love you still
Always have and I always will so I guess we're stuck like this forever

Am I alive
Cuz no one ever lives until they die
And they swear that it gets better
Stay like this forever
Am I alive
Cuz no one ever lives until they die
Then they're stuck like this forever

Oh here we go
You made me stay
No all I know is
I'm not alone
And no one's really that important
I love you still
Always have and I always will
So I guess we're stuck like this forever

Loved you then and I love you still
Always have and I always will
I guess
We're stuck like this forever
