

If you wake up and don't feel love again  
It's just a dream and it was all pretend  
If you wake and you just need a friend  
Know that I'm here until the very end

Cause every night  
You cross me mind  
And let me know  
It's alright  
Every day  
I see your face  
And in your eyes  
I found my place

Where I can't ever fall apart again  
They can't ever break your heart again  
We'll never fall apart again  
We won't ever fall apart again

Don't be afraid of things that don't exist  
Don't be ashamed of everywhere you been  
Cause you had strength when no one ever did  
So I'll be here until the very end

Cause every night  
You cross me mind  
And let me know  
It's alright  
Every day  
I see your face  
And in your eyes  
I found my place

Where I can't ever fall apart again  
They can't ever break your heart again  
We'll never fall apart again  
We won't ever fall apart again
