

Time To Kill

Lil Lotus

I saw you last night, haven't seen your face in a minute
The look in your eyes says what you can't put in a sentence
And when you slow down, I always got time to kill
Is this real, can't be real, can't be real

Is this real, can't be real, can't be real
Can't be real

Is this what you wanted, now we're back where we started
I've been broken and heartless, I don't wanna be like this
Tell me right now, is it gonna be the same way
Everything changed when I found out what you did
And I don't wanna be like you

I saw you last night, haven't seen your face in a minute
The look in your eyes says what you can't put in a sentence
And when you slow down, I always got time to kill
Is this real, can't be real, can't be real

I can't just play pretend
I don't wanna feel like this, hard to get over it
And I can't do it again
Give you what's in my chest 'til I got nothing left
I can't just play pretend
I don't wanna feel like this, hard to get over it
And I can't do it again
Give you what's in my chest 'til I got nothing left
