

Why Do We Fall In Love

Lil' Mo

Let's talk about love
Let's talk about love
Ooh love

You can feel it, but you can't see it
You can't taste it, but you can hear it
You can say it, if you don't mean it
You can buy it, if you don't need it
You talk so much about it, what is the meaning
It makes no sense, so what's the reason
Tell me why do we fall in love?

They say only fool's fall in love, but love was meant for all of us
So what we think we know we don't, cause you can never know enough
Do we think love is so material so physical, and sensual
Cause in the war it will destroy your soul, so one really knows

It can make you laugh
Make you cry
Make you tell the truth
Make you tell a lie
It could be your life
Or it could be your death
Figure it out, it makes no sense

You can feel it, but you can't see it
You can't taste it, but you can hear it
You can say it, if you don't mean it
You can buy it, if you don't need it
You talk so much about it, what is the meaning
It makes no sense, so what's the reason
Tell me why do we fall in love?

We think love is perpetual, but the one who loves you will let you go
The pleasure that is imaginable, it will make you leave a happy home
But all we take is love for serious, do we really know what it means to us
Cause if it wasn't for love we wouldn't be born, but no one really ever know
s

Why it puts us together, it tears us apart
It can even mend it, or break your heart
What we have for our self, what you say to your child
But I still wonder why

You can feel it, but you can't see it
You can't taste it, but you can hear it
You can say it, if you don't mean it
You can buy it, if you don't need it
You talk so much about it, what is the meaning
It makes no sense, so what's the reason
Tell me why do we fall in love?

Physical affection, emotions
Feelings, honest
Wanting, opposites of desire
Longing, needing
Craving, lusting

Baby you light my fire
Graduation, kissing
Hugging, touching
Yearning, sexing
Mother to her child
These are the thing that we really need
When we talk about this thing called love

You can feel it, but you can't see it
You can't taste it, but you can hear it
You can say it, if you don't mean it
You can buy it, if you don't need it
You talk so much about it, what is the meaning
It makes no sense, so what's the reason
Tell me why do we fall in love?

You can feel it, but you can't see it
You can't taste it, but you can hear it
You can say it, if you don't mean it
You can buy it, if you don't need it
You talk so much about it, what is the meaning
It makes no sense, so what's the reason
Tell me why do we fall in love?
