

Not The Same God As Mine

Lil Mosey

I'm just wonderin' what went wrong (What went)
But there's a whole better place for your soul (Soul)
Our feelings gone, and you never would know (Would know)
We smoke on opps and let it out the window (Gas)
See better days, uh, lift your face up (Face)
We in London, waitin' for you to wake up (Wake up)
Never knew where this life would take us (Take us)
All we can do is show you where we messed up

Uh, what do you want? (What do you want)
Huh? Get out my mind (My mind)
Uh, need me a sign (Sign)
What? You're not the same god as mine
Your money, watch it rewind (Rewind)
Yo dummy, money is time
Think it's funny, I don't know why
Million up, and I'm still on my grind (My grind)

Need a hand but you never would help me (Help me)
Need a billion, you never could sell me (Sell me)
Since a baby I fiend to be wealthy (Wealthy)
"Just be safe," what my momma would tell me
I know life is misery
But our story goin' down in history
Hatin' me but I blow it, now they missin' me (Hatin')
Not to my face but behind me they be dissin' me
Woke up, I been sleepin' all day (All day)
Couldn't curb, I been plannin' all-state (All-state)
Can't die, so I keep it always (Boom)
This cross roads coulda go four ways (Cross roads)

I'm just wonderin' what went wrong (What went wrong)
But there's a whole better place for your soul (For you soul)
Our feelings gone and you never would know (Nuh-uh)
