What you gon' say and what you gon' do?  
While you niggas hatin' me, I'm chillin' at the restaurant  
Like lobster, steak, damn it, what I wanna chew?  
Every time you try to holla at a bad broad, man

She look you up and down like "Nigga, who is you?"  
Every time I try to holla at a bad broad  
She like "You ain't gotta talk, I already wanna screw"  
I'ma pop a do', I'm proper, hoe  
When you see Fat Rat, stop, drop and roll  
Got some niggas from the west that'll rock n' roll  
When I tell them "Go to war", they gon' lock and load  
You lil' son of a bih, I done [?]  
See me all up in the club, throwing ones in the bih  
Couple goons, a couple shooters, couple guns in that bitch  
And I ain't worried about no haters, having fun in that bitch

No plate  
Said I ain't have no place  
Still remember slidin' down 59  
In a high-speed chase  
Now it's H-Town, hot in my face  
Big rocket on my waist  
And you niggas just mad  
'Cause finally the turtle won the race
