Lil Peep

Man, I don't know what the fuck goin' on lately, bro, but
Everybody actin' real different and shit
Ain't nobody, nobody was talkin' to me like a few months ago
And now everybody hittin' my phone up and shit

I'm a mothafuckin' Schema' boy, I'm a dreamer boy
I love a girl that don't even fuckin' need a boy
Baby, I'm a beamer boy, I need a beamer, boy
I want a Z3, that's a two-seater, boy
Okay, I pull my cash out, shawty pass out
Take her ass out, then I spaz out
Okay, yeah, I hit that, shawty, get back
I got death notes, where my list at?
Yeah, I'm in my zone now, I put my phone down
I'm on my own now, I'm on my own now
Ya girl, she wanna go down on a real one
I hit JGRXXN, like "What's the deal bruh?"
You see me doin' shows now, I'm a pro now
I got hoes now and I got some dough now
But they don't wanna hear that, they want that real shit
They want that "drug talk," that "I can't feel shit"
I'm never comin' home now, all alone now
Can't let my bros down, can't let my bros down
I feel like I'm a no one, that's what they told me
I'ma show ya, baby, I was chosen, ayy
