Ro-Rock with me-rock with me

Rock

Come and tell me what you need from me

I'ma do what I can

Do you really believe in me?

I just wanna know who I am

I remember holdin' hands tight

Then I felt tricks fall out her sleeve

Rollin' 'round town in a big Z3

With a mouthful of Hennessy, video-game, bust the energy

She grippin' on Chanel with coke nails, I think I wanna take 'em

Make her eyes roll back, kinda like the Undertaker

No attachments, like a Call of Duty newcomer

Watch what happens, drippin' in ice, yeah, just like cool runnings

(Woo!) Head up out the window, bitch, who want it?

So many countries I'm passin'

Lookin' like Monopoly money, oh

Head up out the window, who want it?

You didn't want me back in college

Now you want me, but stop it, come touch me

Rock with me, baby

Got ya breakin' down the rock with me, baby

Ro-Rock with me-rock with me

Rock with me, baby

I might take you to the block with me, baby

Block-Block with me-block with me

Rock with me, baby

Got ya breakin' down the rock with me, baby

Ro-Rock with me-rock with me

Rock with me, rock with me, rock with me, baby

I might take you to the block with me, baby

Rock, rock with me, baby

Rock

Coke nails, she got coke nails, and I can't tell

If she want me or my friend, fuck it, oh well

Now she suckin' me, GB company

Fuck with me, she fuckin' me

In that DoubleTree, fuck it, oh well

OxyContin, Xanax bars, Lortabs, and Percocet

I got all of that, I feel like Lil Wyte, no respect

Give me neck, smokin' cigarettes, free Biggavel

I just pulled up in that vroom vroom, kiss and tell
That's a all black Lambo (bitch)
I ain't talkin' shit less I'm comin' like I'm Rambo (bitch)
Fuckin' on yo' bitch, then I'm switchin' through the channels (bitch)
