

come around

Lil Peep

I can't feel that much sometimes
These drugs gon' kill me, yeah
Disappear into my mind where I can't feel a thing
When the sky falls down, and no one here can think that clearly
I'll be by your side, let's get high, just one last time

I don't wanna stop now, I don't wanna stop now
But I gotta leave it alone
Is it 'cause I'm hot now? It's probably 'cause I'm hot now
Bitch you better leave me alone
First I cut you off then I cut you down
Shit go off, when I come around
I don't never come around
Bitch I'm getting hunnids' now

I don't wanna stop now, I don't wanna stop now
But I gotta leave it alone
Is it 'cause I'm hot now? It's probably 'cause I'm hot now
Bitch you better leave me alone
First I cut you off then I cut you down
Shit go off, when I come around
Shit go off, when I come around
Shit go off, when I come around
Shit go off, when I come around
