

# Ghost Girl

Lil Peep

Juggin on a friday, but I saw you on the freeway I can not forget that face, I'on even know your name  
I'm in love with a ghost girl  
All alone in a lonely world  
I just really wanna find her  
I'ma do another line first

Lying on the asphalt  
Lil Peep blacked out  
Fuckin wit the coatway  
Let my mad max out  
I be on some real shit  
Get it from my OG  
I'on wanna hear shit  
Shawty what she told me  
I'on give a fuck bitch  
I be on my lonely  
Lookin for the right girl  
Why you all up on me?  
Love me for a night girl  
Hate me in the morning  
Yea i know your type girl  
So i make her blow me  
Lil peep  
Look me in my eyes girl  
Tell me if you think that its a lie girl  
Getting tired of your girl  
I know I need my own girl  
My girl x2

Juggin on a friday, but i saw you on the freeway I can not forget that face, I'on even know your name  
I'm in love with a ghost girl
