

My time is here and I'm making it clear  
Oh I love you my dear  
But I'm going, I'm gone  
I might come back when the Benz all black  
Ten racks on my lap  
If I don't relapse and I stay strong  
I could do anything I want to  
Bump Lil Peep, when I die I'mma haunt you  
I could live forever if I want to  
I could stop time but I never wanna do that again  
Nothing worse than losing a friend  
And the feeling you get when everybody that you love ain't around  
I really gotta get away from this town  
I'm just waiting for a wave and I'll drown  
Satan letting me down  
I just wanna help you see, you should run away from me  
Baby I'm a drug and I don't wanna hurt you  
No I'm not gonna hurt you girl, not at all  
I ain't gonna set you free  
All you gonna get from me  
Little bit a love and a little virtue  
If I hurt you, I'll end it all
