

## its me

Lil Peep

When I'm comin' down, the light's real bright  
And the noise rings in my head  
Did I let you down again? (Did I let you down again?)  
If I leave here now, it won't feel right  
With somebody else in my bed (Bed)  
And I'm breakin' down again (And I'm breakin' down again)  
But if I need to go just to show you  
I don't fuckin' care if you don't give a shit 'bout me  
At all, you little bitch, that's cool with me  
So act like you don't know  
That I don't fuckin' stare at anybody else  
The way I do, when it's only me and you

You notice me  
You notice me  
You notice me  
You notice me  
You know it's me  
You know it's me  
You know it's me  
You know it's me  
It's me

My arms are searchin' for you  
My arms are outstretched towards you  
I feel you on my finger tips  
My tongue dances behind my lips, for you
