

let me bleed

Lil Peep

Let me bleed, watch me die
I got golden teeth, she got bright green eyes
She's my fantasy, she only comes at night
She don't know 'bout me, what goes on inside
I'll let you feel my pain if you would get me high
Had to make my name, I had to break my spine
Now I'm on my way, I'm just lookin' for pain
Bitches fuck me the same, it don't matter the place, okay

I just wanna die by my mama's side
Tell her that I love her while my brother cry
I don't got the time for no compromise
Bitch, I need it all, I'ma make it mine

Let me bleed, watch me die
I got golden teeth, she got bright green eyes
She's my fantasy, she only comes at night
She don't know 'bout me, what goes on inside
I'll let you feel my pain if you would get me high
Had to make my name, I had to break my spine
Now I'm on my way, I'm just lookin' for pain
Bitches fuck me the same, it don't matter the place, okay
