

## Lil Angel

Lil Peep

Ion know, Ion know where to start  
I'm over here and it's just  
(Lederrick)  
Lil Peep, ay, ay

California helped me write this song  
Don't nobody wanna wait that long (Ay)  
We just wanna find the ones we love (That's right)  
Lil angel, lil angel (Coming down from above)

California helped me write this song (Okay)  
Don't nobody wanna wait that long (No way)  
We just wanna find the ones we love (That's right)  
Lil angel coming down from above (Alright)  
Lil angel coming down from the drugs (Okay)  
I saw you looking, then you smiled and shrugged (So cute)  
Eat her pussy then I give her a hug (For you)  
Good loving, baby I'm the plug (It's true)

I've been thinking 'bout you all the time (No lie)  
Baby girl, you know you're all on my mind (You're mine)  
I got demons, you can see 'em behind me  
Golden energy has built up inside of me (Yeah)  
Looking at me like there's nobody here (No one)  
We in the club, I don't think that she care (Nah)  
I lit my dutch and then I started to stare (Wassup)  
You ain't met nobody like, I swear (No luck)
