

I can see it in your eyes, that you wanna get out  
I can see it in your eyes, that you need it right now  
That you need it right now  
That you wanna get out  
That you need it right now  
That you wanna get out

Yeah, I just wanna hear the sound  
Drive our Camaros out of town  
Baby, we could leave right now (Woah)  
Yeah, I just wanna feel alive, baby take your time  
Smokin' on this loud (Woah)

Girl, you know you make my cold heart warm with a touch  
One kiss, then we fuckin'  
I just can't get enough  
Put it on me, that's the best part, baby, the trust  
Trust me  
I got nothin' for you other than love  
I remember eatin' pussy on the back of the bus  
I remember gettin' nookie till the sun came up  
All the places that you took me, no one came with us  
Same hoes overlook me, now they on my, nuts
