

# Spotlight

Lil Peep

Lovin' you is like a fairytale  
I just can't pick up the phone again  
This time, I'll be on my own, my friend  
One more time, I'm all alone again

Sex with you is like I'm dreamin', and  
I just wanna hear you scream again  
Now you're gone, I can't believe it  
Time I spent with you deceivin' me  
I don't care if you believe in me  
I still wonder why you're leavin' me  
I don't care if you believe me  
I still wonder why you tease me

And if I'm takin' this the wrong way  
I hope you know that you can tell me  
Whatever you're thinkin'  
It's when you put me in the spotlight (spotlight)  
I hope you know I'm faded  
All of this liquor I'm drinkin'  
And if I'm takin' this the wrong way (wrong way)  
I hope you know that you can tell me  
Whatever you're thinkin'  
It's when you put me in the spotlight (spotlight)  
It's when you put me in the spotlight (spotlight)

When the moon hit your skin  
I could see you and him  
Not you and me, but it's just you and me  
When the sun shines above  
you wake up with the one you love  
Not you and me, but it's just you and me  
(All alone again)
