

## Swamp Theme

Lil Peep

Yeah  
What, hey  
Ooh, yuh, uh

Welcome to the underground, other underground  
Pussy never come around, he don't like the sound  
Lil Peep, OmenXIII, we hold it down  
I can take that smile off your face and make you frown  
Evil killer clown, creepin' in the sewer  
I be laughing while I'm killing, like I barely even knew her  
I'ma cut her up in pieces, leave that bitch inside the swamp  
I'm the king over it so everybody knows what's up

Welcome to the underground, other underground  
Where you can't see a thing and you can't hear a sound  
Lil Peep, OmenXIII we hold it down  
We could take your fuckin' industry and burn it to the ground  
Get the gas and light the matches, then we dance around the ashes  
Get the message to the masses 'cause we sick of hearing wack shit  
'Cause these niggas got no passion, fashion game played out  
I just don't give a fuck how you walkin' out the house  
OmenXIII, ice when I speak  
Flow so cold but I'm comin' with that heat  
I'm comin' out my castle, I ain't comin' off the street  
Then it's back into the shadows where they cannot seem to see  
I feel like I'm asleep, I'm lost in the abyss  
I'm hidden in my pain, I'm hidden in the mist  
Akatsuki with the shit  
No I don't need no bitch  
No I don't need no fame  
No I don't need no clique, bitch

Welcome to the underground, other underground  
Pussy never come around, he don't like the sound  
Lil Peep, OmenXIII, we hold it down  
I can take that smile off your face and make you frown  
Evil killer clown, creepin' in the sewer  
I be laughing while I'm killing, like I barely even knew her  
I'ma cut her up in pieces, leave that bitch inside the swamp  
I'm the king over it so everybody knows what's up
