

Vibe

Lil Peep

I been spending time
Time after time
Tryna get my mind right
But I just find I been lyin'
Lying to myself
I don't need your help
I been just fine on my own
Baby I could handle mine
I could multiply
I could satisfy
Anybody tryn' see me shine
Man that's just the way I grind
I been on my grind
You been on my line
Thats the reason why
I been working hard
You could stand aside
I could never die
I got too much pride
Thats why she always crying tell me that
I'll live forever thru my vibe
I can never die
I got too much pride
Thats why she always crying tell me that
I'll live forever thru my vibe

Thats why she always crying tell me that
I'll live forever thru my vibe x2
