

1 Night < For Life

Lil Poppa

How can I be the one that you need by your side, to lay down?
I know you get lonely at night and I know nobody's around
Stay down 'cause it get cold
As you can see my heart on froze, already
And sometimes it get heavy
Girl, let me know if you ready

I'm trying to catch this wave with you
Run it up then run away with you
Spend all this shit in a day with you
I'm just trying to be your friend if it's cool
We can pop us a ten and forget, boo
Come and tell me whoever against you
'Cause they all gon' die if they play with you

Baby, I need a rider
Ride and we slide, up and down 95
Destination somewhere we can go and hide
I got pride, you got pride
Let's just put it all aside
For one night, hoping we can turn it into for life

Just let me know if it's alright with you
No, you ain't okay, I see right through you
You just need a nigga do right to you
Sit and tell you everything I like
Do I wanna see the head game? I might
Don't believe in love at first sight
I did it once, it was with a pint
Then I seen you and that made it twice
Leave for the night, baby, leave
It's crazy that I want you and I don't want for anything
You say don't sip but every time I do you in my dream
If you don't make it come true, I'ma continue being a fiend

I'm trying to catch this wave with you
Run it up then run away with you
Spend all this shit in a day with you
I'm just trying to be your friend if it's cool
We can pop us a ten and forget, boo
Come and tell me whoever against you
'Cause they all gon' die if they play with you

Baby, I need a rider
Ride and we slide, up and down 95
Destination somewhere we can go and hide
I got pride, you got pride
Let's just put it all aside
For one night, hoping we can turn it into for life

Just let me know if that's okay with you, girl
I'm trying to bring you in my world
I'm trying to tell you fuck what you heard
I'm just trying to give you my word
I'm just trying to be the one
Nah who am I the one to say what you deserve?
It's your fault I'm up this late

And the pill lady sleep, I can't get served
You telling me be a man, but if he's a bigger man than me then why is you se
arching?
Love me then leave again, you be on some angel and demon shit
Baby, I want to know, can I go with you, girl?
Reach the heights
Trying to go see the moon, never come back
Your type is never your type

I'm trying to catch this wave with you
Run it up then run away with you
Spend all this shit in a day with you
I'm just trying to be your friend if it's cool
We can pop us a ten and forget, boo
Come and tell me whoever against you
'Cause they all gon' die if they play with you

Baby, I need a rider
Ride and we slide, up and down 95
Destination somewhere we can go and hide
I got pride, you got pride
Let's just put it all aside
For one night, hoping we can turn it into for life
