Lil Poppa

(Scotty just caught him a body)
Scotty just caught him a motherfuckin' body
Scotty just caught him a motherfuckin', uh
Scotty just caught him a motherfuckin' body

When you said you love me, did you lie? Just be honest
Baby, I can't make no promise, I need hydros, I be on it
Got a line that I ain't pour up yet, flight that I ain't board yet
Couple cities I ain't toured yet, Amiri's I ain't worn yet
I think I've seen all fifty states, I just ain't went foreign yet
Brother got a phone under his doormat, son rich and he ain't even bor
n yet
When I fuck her, I record that, come here, lil' bitch, throw it back
Nigga say he tryna dodge his death, I say, "You can't avoid that"
I told him send me where the war's at
'Cause I'm a war vet, bars, I gave my boys that
Give me my heart, I gave you yours back
That's your loss, so sad, but that's too bad

And they say I got my K with me, got back, you know I love that sound
Spent 30K in 'bout a day on me, I ain't trippin', we can afford that
now
Is you gon' wait on me? 'Cause I need you to hold a nigga down
Stay away from me, no, I don't want none of them niggas 'round
One in the head and he ain't scared to lay a nigga down
Life on the edge, pistol by the bed if they come get me now
Stand on what I said, know I made a pledge to hold my niggas down

Tryna get somethin' dead, them niggas scared when I'm ever in town
On heavy meds when I'm with Quez, pourin' red on the ground
Them youngins been slidin' all day, better not come out that mouth
We been outside all day screamin' 1200 bound
Bruh get them lows out the way, chargin' twelve for a pound
Never thought I'd be this way when I was at R.L. Brown
A wee nigga can sink a ship and that same ship'll make you drown
I wanna leave this bitch and take a trip, go missin' and they never f
ound me
It's all or nothin', ain't no way around it
Left me with nothin', and nigga, I allowed it
My vision blurry and my mind cloudy
They gon' plan to murk me, but I really doubt it

And they say I got my K with me, got back, you know I love that sound
Spent 30K in 'bout a day on me, I ain't trippin', we can afford that
now
Is you gon' wait on me? 'Cause I need you to hold a nigga down
Stay away from me, no, I don't want none of them niggas 'round
One in the head and he ain't scared to lay a nigga down
Life on the edge, pistol by the bed if they come get me now
Stand on what I said, know I made a pledge to hold my niggas down
